## Hosted Radiologist Peer Review

*"Focus integrated with our PACS automatically and our entire radiology staff was doing peer reviews the same day. Now peer review takes only a few clicks and just seconds."*

Perform peer review directly from PACS within the secure web-based hosted platform. qiVue-Focus delivers the cost-effective quality solution that ensures organizational compliance with peer review requirements.

Inspired by the elegant simplicity of peerVue's qiVue™ solution for regulatory, quality and communications challenges, qiVue-Focus makes available a simple to use, no hassle peer review solution. By leveraging peerVue's renowned Magnetic Integration, radiologists access web-based peer review in one click from any RIS, PACS, EMR or Report Creation System.

The automated system minimizes the interruptions to the radiologist that are commonly associated to other more manual systems.
